

Faith Music Academy Covid-19 FAQ's

What measures are you taking to keep in person lessons safe?

We have hand-sanitizing stations around the entire church building for your safety.

What happens if I test positive for Covid-19?

If you or your teacher are in quarantine due to a positive Covid-19 test you need to either reschedule or set up an online lesson. Once the quarantine is over you can return to in person lessons.

What happens if schools shut down or the city/county government goes back to lockdown?

We will honor the city/county government lockdown and go to online lessons again. However, if the schools shut down but the city/county government stays the same, we will still have in person lessons until further notice.

Are ensembles still happening?

Yes! We can space out at a safe distance in the ensemble rooms and hand sanitizer is available.

What is the best way for me to stay updated on any changes?

Communication with your teacher is always the best by both phone and email. We will also pledge to do our part from the Music Ministry Office to communicate any important information and make sure you are always aware of what is going on.
